# ReAct+

## Employment support as unique as your taste.

We all like to personalise things  
just the way we like them.

That's why support to help you  
into work should be as unique  
as you.

If you've recently been affected by  
redundancy, ReAct+ offers personal and  
financial support to get you into work in  
the shortest time possible. With ReAct+  
there's no one size fits all.

Our expert advisers will assess all of  
your options, check your eligibility and  
complete an action plan, before helping  
you through the application process.

What you get is unique to you and  
could include:

- **A Vocational Training grant of up to £1,500** to update your skills or retrain.
- **Up to £200 for additional support** to help cover training related costs.
- **A Care/Childcare grant of up to £2,100** to make training possible.

For support to get you into work, call **0800 028 4844** or search  
**Working Wales ReAct+** to speak to a Working Wales adviser.
