ReAct+

Employment support as unique as your style.

We all like to personalise things just the way we like them. That's why support to help you into work, should be as unique as you.

ReAct+ offers personal and financial support to get you into work in the shortest time possible. With ReAct+ there's no one size fits all. What you get is unique to you and could include:

- **Vocational Training of up to £1,500** to update your skills or retrain. Plus **up to £300 for additional support** to help cover training related costs.
- **Care/Childcare of up to £4,550** to make training possible.
- **Personal development support of up to £500** to help remove barriers to work.

For support to get you into work, call **0800 028 4844** or search **Working Wales ReAct+** to speak to a Working Wales adviser.

Our expert advisers will assess all of your options, complete an action plan and check your eligibility, before helping you through the application process.
